MediFlow AI

Autonomous Healthcare Operations Platform

STARTUP PROFILE & AUTHORIZATION CERTIFICATE

Ref: MFAI/AUC/2026/001 Date: 29 March 2026

ENTITY INFORMATION

Entity Name	MediFlow AI
Nature of Entity	Individual Innovator / Proprietorship
Industry Sector	Healthcare Technology & Artificial Intelligence
Founded By	Nitanshu Tak
Institution	UPES Dehradun — BTech CSE (Cloud & Virtualization)
Website	https://medi-flow-ai-roan.vercel.app
GitHub	github.com/Nitanshu715/MediFlow-AI

PROJECT OVERVIEW & INNOVATION

MediFlow AI is an autonomous, multi-agent healthcare operations platform designed to automate the complete lifecycle of medical insurance claims. The system leverages advanced artificial intelligence, natural language processing, and compliance-aware automation to transform unstructured clinical data into validated, auditable, and decision-ready outputs — reducing end-to-end processing time from ***6 hours to 28 seconds*** with an estimated ***87% reduction in coding errors***.

5	28s	87%	₹4.40Cr

AUTHORIZATION

I, ***Nitanshu Tak***, as the sole Founder and authorized representative of ***MediFlow AI***, hereby authorize the submission of all documents, applications, and materials pertaining to Founder-declared startup initiative under DPIIT application under the Startup India initiative. I confirm that MediFlow AI is an original, independently developed innovation in the healthcare technology domain. The project has not been formed by splitting or reconstruction of any existing business. No formal legal entity has been registered at this stage; formal incorporation is planned as the venture progresses. I accept full responsibility for the accuracy of all information submitted and undertake compliance with all applicable regulations of the Government of India.
